

Data Sheets

CONDAT

A strong but silky paper for sumptuous inks and pure deep whites: Condat has combined the best of two extremes to achieve a superlative contrast. Condat silk is a matt paper that is a fine example of the coated papers on which the company built its reputation. It is the perfect answer for all those looking for papers offering both strength and an ultra-smooth surface, vibrant colour and lustrous whites.

- Woodfree coated paper - exceptional silk finish
- Suitable for all digital presses on the market
- Excellent balance between bulk and smoothness
- High whiteness and opacity
- Excellent runability thanks to its bulk and stiffness
- Excellent finishing properties
- Good printability, excellent dot definition
